Install eSIM on Samsung phone or tablet (Printable version)

Prestart checklist

- ✓ A strong internet connection Ideally, you will need to be on Wi-fi or have good 4G signal.
- ✓ An eSIM compatible device If you are unsure, see list of compatible devices <u>here</u>
- ✓ Your device must not be locked to a single network.

Tips

• Notice the two signal strengths at the top of your screen!

III O

- The signal strength shown on the right is the one being used for "Mobile Data". .
- To save battery, turn off your easySim if you're not using it.
- We suggest you name your eSIM "easy" so you can easily recognise it. To do this, click the edit pencil in top right corner . of screen.

Wishing you safe travels, from all at easySim.global
